The Hard Roads Band

This year's 1980 Homecoming Court included, from top left: Paul Kovach, Sean Fitzpatrick, King-Bob Rice (All Seniors). Band Floats To A Victory

Homecoming is the time when the entire school gets together and becomes one great mass of spirit. The tradition is that each class plus any organization gets together and builds a float. At the football game Homecoming night, the winners of the float competition are announced. This year the band took first, Freshmen were on their heels with second, and third place went to the Seniors!

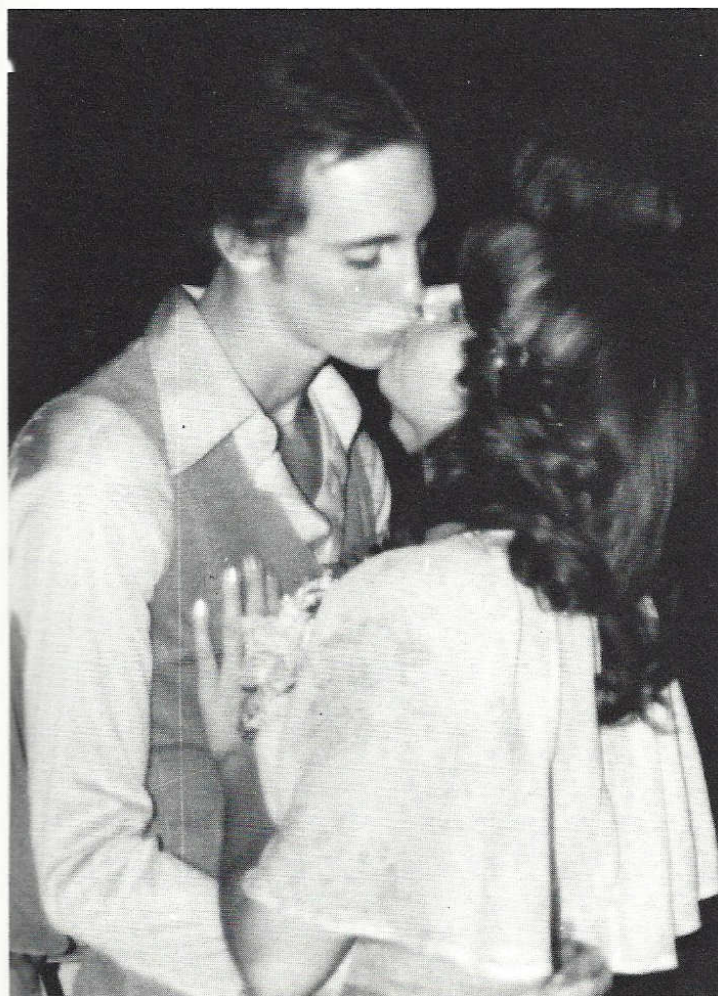

A Touch of Class . . .

At one time, the students of Streetsboro High came to school in formal attire, this was the night of October 11, 1980, the night of the Homecoming dance! The gym was exquisitely decorated with clouds and stars to match this year's theme "Into the Night!"

This year's Senior float was a third place winner! (Top Left)

"I hate to say this . . . but I think our braces are stuck," Jeff Brewster and his date Leesa Campbell. (Below)

"And now for my grand entrance!" Erin White leads her date through the decorated archway. (Lower Left.)

Expecting . . . The Unexpected

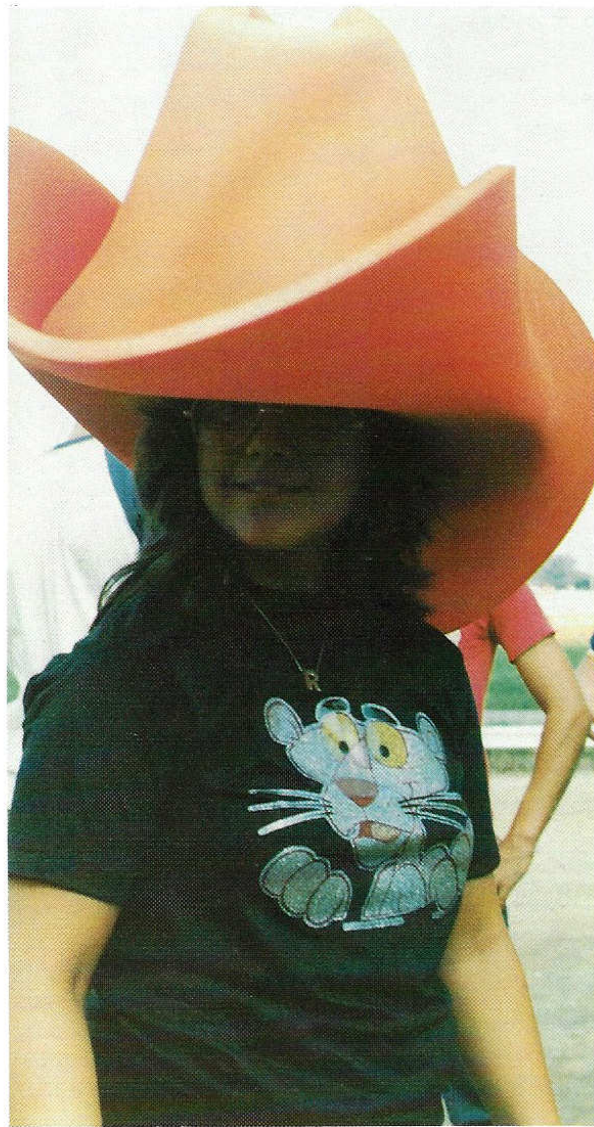

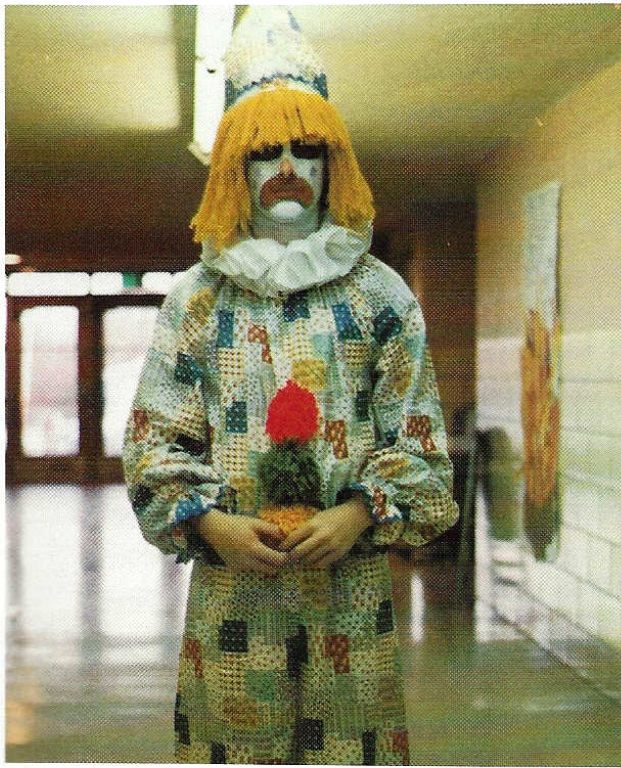

"Kiss me you fool!" Bob Rice and his mother fight over a piece of licorice.

"No, it's mine, you can't have it!" It's Paul Kovach and his mother playing tug of war with a piece of licorice.

The cheerleaders gave the football players a scare when they played a trick on them. They were promised they could kiss a cheerleader, but when they reached the other end of the licorice, they found their mothers instead!

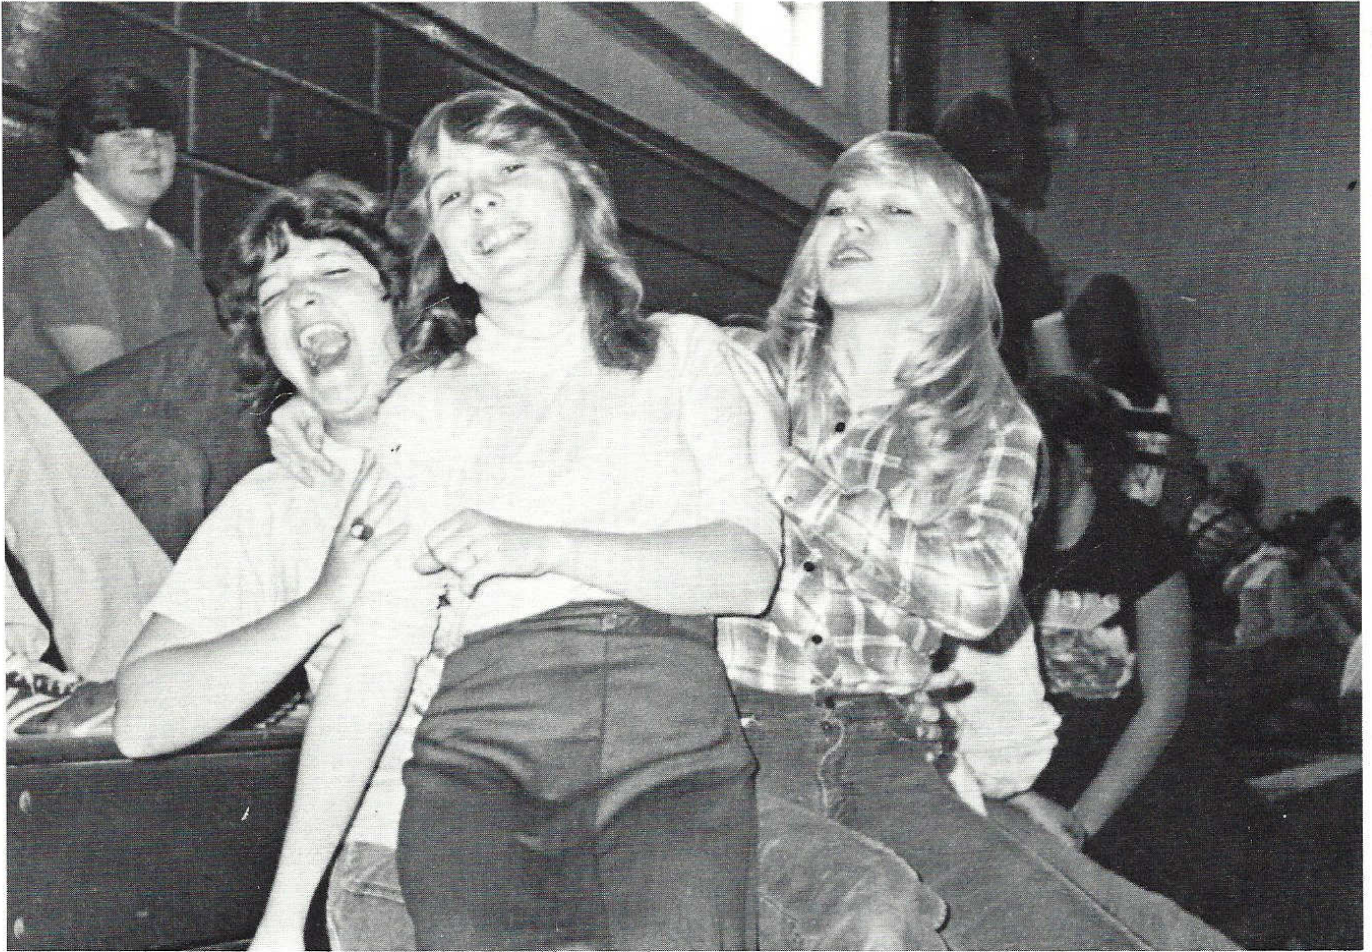

Clowning around, showing off his Halloween costume is Doug Corzine in all his glory. Top Left

Stretching it to the limit! Bobi Roberts and Anna Rodriguez in the fun house at the Ohio State Fair.

Streetsboro High School Band shows their spirit by participating in many events. Directed by Mr. Ken Granville, the band has blossomed into the Marching 100. Also with the help of Flag Corp director Judy Lewis, the girls have improved 100%! These talented members of our school are recognized for their incredible amount of spirit!

Who do you think of when you think of someone who is always smiling?
What about Tony Dascenzo?

Tony, whose full name is Anthony Albert Dascenzo, was born on January 17, is 18 years old and is a Capricorn. He likes to dance, act, sing, and do photography. He spends his free time listening to music. Tony's favorite class here at SHS is accounting and his favorite activities are football, basketball, baseball, racketball, singing and meeting people. When asked about his future plans, Tony says he would like to go to college but not right after high school.

When asked how he keeps so happy Tony replied, "Oh I don't know, I just am." And when asked about losing one of his senses he answered that he would want to lose his sense of smell because he could still listen to music and keep on singing.

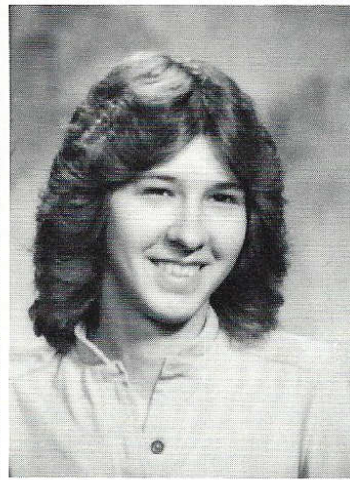

Tony said if he had to change one thing about his personality he would change the way he acts at times because he feels he acts too crazy at the wrong times.

So, there you have Tony Dascenzo in a NUT-shell!

Russell Anderson- "D.J. Extraordinaire"

Russell James Anderson, better known as Russ T. James, has always been interested in electronics. This interest is probably one of the key factors leading up to what he has accomplished today.

Andy Tuttle, a friend of Russ's, who was a student at WSTB, saw his extreme interest in electronics and invited him to visit the station. Never being there before, Russ didn't know what to expect, but from the moment he stepped in-it was love at first sight. Russ describes it as "the most facinating thing in the Streetsboro School District." From that moment on, he spent his lunchtime at WSTB.

All this occured when Russ was a freshman. By the time he had become a Junior (and an official student of WSTB) he had obtained some primitive equipment, most of which he rebuilt himself, to practice with. He wanted to be ready to go on the air his Senior year.

A friend who happened to hear him practicing suggested that he spin records at her party. Sceptically, Russ accepted this offer as a challenge. This challenge paid off, for the name Air Sound Command was soon derived from a floppy advertisement disc called "Jock Shots", and his first paying party was just around the corner.

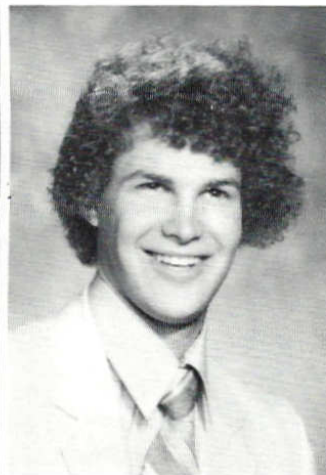

As Air Sound Command was being booked for parties, Russ bought new equipment and new records. Top 40 isn't the only thing he plays, but also golden oldies and country music.

After graduating, Russ plans to attend Ohio University, majoring in communications. And as for the future, Russ said "I guarantee, Russ T. James will be working somewhere in radio—on TOPI!"

Ray Hapeman-Man Of Destiny

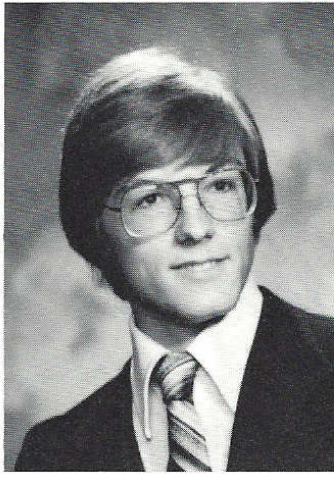

Ray Hapeman is being featured this year for his help in the plays (with electronics) and for being outstanding in the field of science.

His favorite class he says is Chemistry, and his hobby is electronics. He feels that his greatest accomplishment has been receiving his novice license.

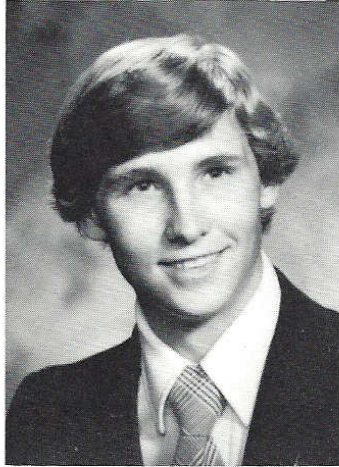

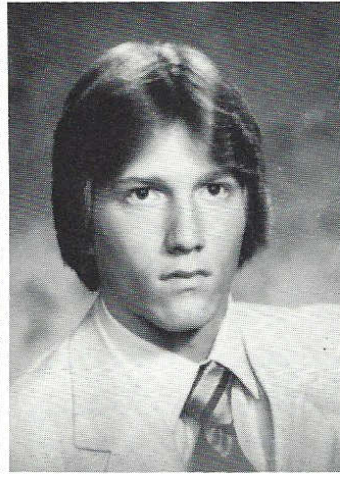

His plans for the future are to go to Akron University and study Electrical Engineering. His goal is to be just that: an Electronic Engineer.

Ray is an active member of the Science club, band, and drama club. He is generally a quiet person (but not exclusively). He is quite an intellectual and may someday see his name in the "lights."

Karen & Sharon Cross- Two Of A Kind

November 20, 1962 was a very special date for two very special people. Sharon Fawn and Karen Dawn Cross were born that day. They are the first twins in Streetsboro who started in kindergarten and graduated from SHS.

Their physical likeness is definitely uncanny. Even their closest friends often find themselves taking second looks. Yet their personalities could not be more individual.

Sharon, first born of the two by seven minutes, enjoys listening to mellow rock, reading, and watching football on television. Karen, passes the time with writing, rock and roll music, and going to the football games. Both of the girls are members of the Aurora Assembly for the Order of the Rainbow for girls.

As can easily be seen, Sharon is the quiet one of the two, whereas Karen is the "wild & crazy" twin. Both girls have bright and outgoing personalities and get along together as well as any two sisters would.

As children, the sisters were often dressed alike, which the two weren't overly enthusiastic about. On the contrary, the twins just want to be themselves and to be creative in their own ways.

Gary Motz- Mr. Nice Guy

Did crowds at a volleyball game ever wonder who was keeping the score? Did the football team ever think about who filmed all those games for them? Have the girls ever really known who helped them receive equal privileges for sports?

Has the school ever known exactly how much help this one man has done for them? Most importantly, have all of these people ever thanked this man for all these things?

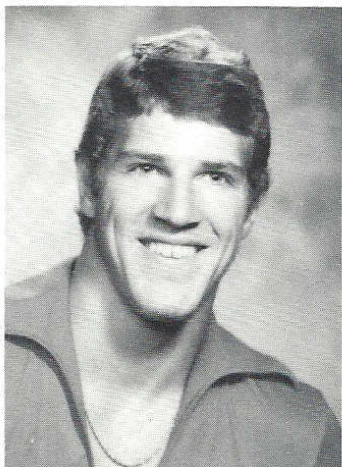

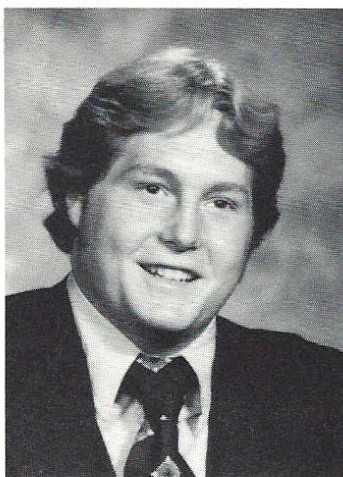

Mr. Gary Motz, a man who is very much dedicated to our school, is being featured in the yearbook as an all-around nice guy. He is one out of the small group of teachers in the world that cares so much for the lives, education, and futures of the students. He would do his utmost to help one of his students.

The yearbook staff commends Mr. Motz for his dedication and thanks him for helping us all in the many ways that he has.

Foldessy's- Parents Who Care

Mr. and Mrs. Foldessy- "A Caring Couple"

Selling tickets in the dark of a cold or rainy night, in a stuffy booth, warding off pesky mosquitoes isn't a favorite way to spend an evening.

Yet, someone every year has this job. Mr. and Mrs. Russell Foldessy have been selling tickets for the high school's football games for a total of seventeen years. They began as volunteers for a certain period and have been dedicated to it continuously.

Their loyalty extends in their children, as well, however. Mrs. Alice Foldessy has taught the second grade at Campus Elementary for twenty years, and her feeling for the importance of education is mirrored in both of her daughter's work. Gail Dineisi, her second married daughter teaches the fifth grade at Campus. Renne Foldessy teaches Physical Education for the Field District. Karen Poole, her eldest daughter has four daughters of her own. Glenn, her eldest son is a radio engineer for two major radio stations, and her son, Gary, has just begun work on his future plans by attending KSU as a mechanical engineer.

Mr. Russell Foldessy is Ground Supervisor at Kent State University. He is in charge of landscaping, etc. He was the master of masons in 1979, a proud position to hold. Mrs. Foldessy, is Worthy Matron of Hudson's chapter, and has taken to much travel and heavy responsibilities, in his position. Mr. Russell Foldessy, amazingly enough, attended Streetsboro High School in his youth.

The Streetsboro school district can be grateful for having such devoted citizens in its midst such as these two very fine people.

Awards: Track- All PCL in 1 & 2 mile.

Pat Jones-Caring For Others.

"I feel great when I go there. It is a whole different world," stated Hattie Larlham volunteer, Pat Jones.

Hattie Larlham Foundation is a home for severely retarded children up to 18 years old. This home shelters these children and cares for them with the facilities they need. Most of these children are so retarded that, because the parents don't have the facilities to care for them, they are usually placed at the Hattie Larlham Home.

They use the volunteers to aid them and give extra care to the children. Pat has spent three years volunteering-eight hours a week. "We also swim with the kids and play games with them," said Pat. "Being with the children, I have become very attached to them."

John Nicely

"It's something that is fun to do, different, and not everyone can do it," commented junior John Nicely about his new hobby. Last February John found a different type of entertainment to do in his spare time—Juggling. John started to pick it up because he saw someone else and it aroused his curiosity.

John prefers to juggle bean bags and oranges. He is up to juggling three objects at a time. John said, "I like to juggle when I am bored and have nothing to do." John also has other hobbies that he enjoys such as: swimming, hiking, bike riding, bowling, and baseball. John is also a photographer for the yearbook.

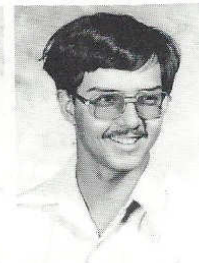

John said his interest in juggling is only for fun. He does not plan to make it his career. But, who knows, he may "juggle" his plans.

Karen Berzinsky

Superior Artist

"I've drawn for as long as I can remember", says Karen Berzinsky. Karen holds the position in Streetsboro High School of being one of the most academically inclined students. If that isn't enough, she also is a very gifted artist.

Karen will be graduating in 1982, but that is only officially. She will be starting her would-be senior year at K.S.U. as an art student.

Karen's first important drawing was at the early age of seven. It was a drawing of "Shamu" which won first prize in the county art show. She has won numerous other awards for her outstanding artistic ability.

Karen's hobbies are quiet ones, like playing guitar, reading, crocheting, writing, and of course, art. She likes all styles of art, and just about all of the artists. She especially likes David Bowie, because she says, "he's a total artist. He sings, acts, paints, mimes, and writes. That's the kind of person I'd like to be."

There aren't many people who have the natural ability to draw, but Kenneth Michael Granville is one person who has that ability.

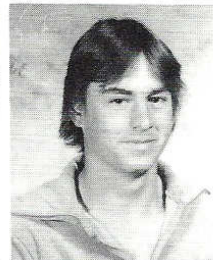

When he was little, Ken was always doodling here and there. By the time he was in grade school, he entered an art contest and won a certificate. He also won an award in seventh grade. In his sophomore year, he got further involved in art, such as having displays in the art show.

Ken also has other interests besides art- such as music and sports. He plays French Horn in the band, and is a member of the wrestling team.

Candy Stripers

Candy Striper sounds like some kind of candy, but it's not. It's a volunteer program at Robinson Memorial Hospital. We have Candy Stripers at our school. They are very dedicated girls, who go about once a week to volunteer. They work in all parts of the hospital except the emergency and operating rooms where they are not permitted.

When asked what made them interested in volunteering Joyce Marks said, "My Mom influenced me to start volunteering. Now, I am interested in making a future out of it."

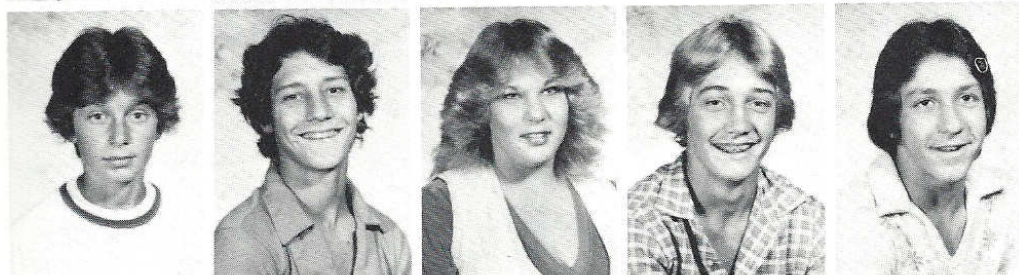

Mary Heffner, also a Candy Striper, commented that she was persuaded by her friend Joyce to also volunteer at the hospital.

When asked what they did, they said they take patients to different parts of the hospital and work in the coffee shop most of the time. Mary added, "What's really sad about working here is seeing one of your friends or relatives go into the emergency room."

They said they are given a party after volunteering 100 hours. However, the party isn't the main reward, of course. The good feeling of having helped someone is the more long-lasting benefit.

Steve Foltin-Friend, Teacher, And Radio Manager

There's one teacher who deserves a lot more recognition than he gets, and that's Steve Foltin, station manager of WSTB. Not only does he have students to teach, but he also has to make sure the station is run the right way. This isn't as easy as it sounds, knowing that a stiff fine would quickly be slapped on the station for breaking FCC rules or regulations.

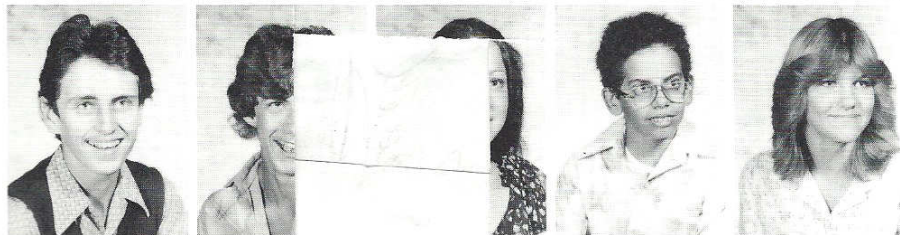

The students at WSTB feel Mr. Foltin is more of a friend than a teacher. His fun-loving personality, along with his understanding nature, let him easily relate to his students. Because of the unfortunate fact that many students don't know him, he could never be elected "Favorite Teacher". A personal message from the broadcasting class of '81 just about wraps it up: "Mr. Foltin, you're tops with us!"

1981 Golden Key Yearbook Staff

Brian Dawson shows off his happiness for the yearbook by a smile.

Randy Twyman with a mouth full of cream puff wonders if he can finish the rest.

Another year has ended and many of us have come to the end of our years here at SHS.

During this year I've made many new friends and these people have give me their best to put this book together and I would like to thank them all. THANKS! I would like to especially thank the following people for all the extra work they have done: Anna Rodriguez, Carrie Ryman, Jan Sobolewski, Cheri Pelkey, Maureen Croyle, Toni Dunn, Ragna LaRoche, Sharon Cross and Mr. Douglass. It is alot of work and long hours but in the end it is all worth it. Thanks to you all.

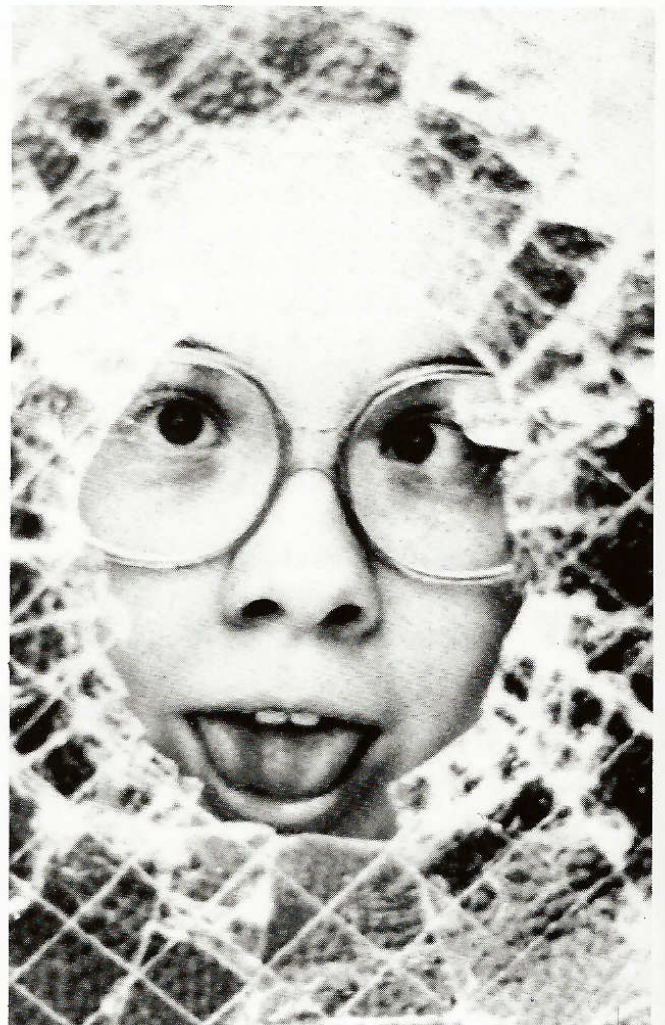

To Mr. Douglass, thank-you for all the hard work and the time you have spend and for putting up with the staff. And Remember don't eat chicken potpie!

To all SHS students in the coming years the Golden Key Staff wishes you Good Luck!

To my Mom and Dad, thanks for putting up with me and letting us have our meetings at the house. Dad, thanks for getting all those bunnies we used to raise money with.

And last of all Good Luck to next years staff. I hope you have as much fun as we've had, and may you meet all your deadlines on time. Thanks so much.

*Our memories of yesterday will last a lifetime.
We'll take the best, forget the rest,
and someday we'll find,
these are the best of times,
these are the best of times.*
